# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-57946, 02/21/19, 2209 hours:** The Air Force Rescue Coordination Center (AFRCC) reported an overdue aircraft alert notification (ALNOT). A Beechcraft 55 with 3 persons on-board departed San Luis Obispo en route to Whiteman Airport in Los Angeles. The aircraft was reported overdue at 1600 hours by family members. AFRCC generated a Civil Air Patrol (CAP) mission 19M0101A. Kern County Sheriff's Office (KCSO) was notified and generated a Search & Rescue (SAR) mission. A radar forensic indicated the last known position at 35° 6.411'N, 119° 1.593'W before it lost contact, which plots to an area in Kern County south of the Grapevine. The flight pattern prior to losing contact suggested the aircraft altered course to avoid a storm cell. KCSO SAR and CHP H-40 searched the area of the last known radar contact and did not locate the aircraft or debris. A cellular phone forensic tracked two known phones onboard approximately 20 miles further east, where one stopped generating data at 1718 hours and the other continued to generate stationary data at 35° 2.829'N, 118° 35.591'W. This plots to a mountainous area of Kern County, southeast of Stallion Springs. Poor weather prevented CHP and KCSO aircraft from accessing the area to search from the air. At 0630 hours, CAP generated a daytime search mission. **MISSION ONGOING**
